

# Coventry

**SOUTH PACIFIC SEEDS**  
SINCE 1986

## Specifications

### Crop

Pumpkin

### Market Segment

Kent

### Hybrid

Yes

### Features

- Deep orange flesh colour
- Small seed cavity
- Uniform shape and size
- Approx. 24x14cm; AFW 4-4.5kgs
- Attractive skin colour at maturity

## Specifications

### Description:

COVENTRY is a high yielding Kent pumpkin with good vine vigour. COVENTRY has been bred to retain an attractive mottled blue-green skin colour through to maturity, compared to other varieties which tend to pale out as they age. COVENTRY has similar size and shape to current standards with a small seed cavity, deep orange flesh colour and good uniformity and shelf life. Yields have been slightly higher than Hybrid 864 and Joker in plantings to date.

*For a full definition of the disease terms, High Resistance and Intermediate Resistance refer to the product section on our website.*

The information provided is based on an average of data and observations collected from our trials. Significant variations may occur in the performance due to a range of conditions including cultural/management practices, climate, soil type and geographic location.
